

Questionnaire Block 3

Question 1

Briefly describe the strategy that you used in this block.

I used a similar strategy as before, ~~selecte~~ thinking ahead and selecting 1 higher number than I would expect my opponent to choose. I kind of alternated between choosing numbers close ~~to~~ to the signalled number and ~~to~~ numbers further away.

Question 2

What did you think of the other player's strategy? Briefly describe their strategy as well.

The other player's strategy was okay, a bit resembling my own. However, sometimes they chose a number lower than the signalled one which seemed to me a bit odd as the chances of winning a point with that are ~~are~~ probably lower, making it seem a bit defensive as you would also not give me an opportunity of winning a point.

Question 3

How would you rate the cooperativeness of the other player?

1 2 3 4 5
☐ ☐ ☐ ☒ ☐
 uncooperative neutral cooperative

Question 4

How would you rate the competitiveness of the other player?

1 2 3 4 5
☐ ☐ ☒ ☒ ☐
 uncompetitive neutral competitive

Question 5

How competent was the other player at the Mod-Signal Game?

1 2 3 4 5
☐ ☐ ☐ ☒ ☐
 incompetent neutral competent

Question 6

Would you want to play with this player again? Explain briefly.

yes, it was a combination of strategy and random moves which made it fun and once you kind of predict their strategy you can also win some points.

You can now turn over the last questionnaire (general questionnaire) on the table.
