

Questionnaire Block 3

Question 1

Briefly describe the strategy that you used in this block.

I tried to not cooperate with the other player. I was choosing numbers increasingly further than the signal. After a while I changed the strategy and I was choosing numbers very close to the signal, as the other player was doing also, with their signal.

Question 2

What did you think of the other player's strategy? Briefly describe their strategy as well.

They were choosing very predictable numbers, very close to the signal (sometimes they were also saying the truth). But other times, they were trying to copy my strategy, or choose a random number.

incompetent		neutral		competent

Question 6

Would you want to play with this player again? Explain briefly.

Yes, it was fun, even though I did not get many points. They were really put effort into trying to win or do their best. It was challenging and the player was clever.

You can now turn over the last questionnaire (general questionnaire) on the table.
