

Questionnaire Block 1

Question 1

Briefly describe the strategy that you used in this block.

I tried being honest and splitting the points

Question 2

What did you think of the other player's strategy? Briefly describe their strategy as well.

They were smart and using strategy and deception

Question 3

How would you rate the cooperativeness of the other player?

- 1 ☒ 2 ☐ 3 ☐ 4 ☐ 5 ☐
 uncooperative neutral cooperative

Question 4

How would you rate the competitiveness of the other player?

- 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☒
 uncompetitive neutral competitive

Question 5

How competent was the other player at the Mod-Signal Game?

- 1 ☐ 2 ☐ 3 ☐ 4 ☒ 5 ☐
 incompetent neutral competent

Question 6

Would you want to play with this player again? Explain briefly.

No, I would wanna be honest and fair but then they would take all the points

Questionnaire Block 2

Question 1

Briefly describe the strategy that you used in this block.

I tried being honest with my signals while trying to gain points on his signals

Question 2

What did you think of the other player's strategy? Briefly describe their strategy as well.

At times it was random and at other times deceptive and smart

Question 3

How would you rate the cooperativeness of the other player?

1 2 3 4 5
☐ ☒ ☐ ☐ ☐
 uncooperative neutral cooperative

Question 4

How would you rate the competitiveness of the other player?

1 2 3 4 5
☐ ☐ ☐ ☒ ☐
 uncompetitive neutral competitive

Question 5

How competent was the other player at the Mod-Signal Game?

1 2 3 4 5
☐ ☐ ☐ ☒ ☐
 incompetent neutral competent

Question 6

Would you want to play with this player again? Explain briefly.

Not exactly it was too random for no reason

Questionnaire Block 3

Question 1

Briefly describe the strategy that you used in this block.

I was entirely honest with the signals and tried to give my opponent an equal score

Question 2

What did you think of the other player's strategy? Briefly describe their strategy as well.

They were mainly honest but sometimes hesitated if I was honest and would lose points as such a result

Question 3

How would you rate the cooperativeness of the other player?

1 2 3 4 5
☐ ☐ ☐ ☒ ☐
 uncooperative neutral cooperative

Question 4

How would you rate the competitiveness of the other player?

1 2 3 4 5
☐ ☒ ☐ ☐ ☐
 uncompetitive neutral competitive

Question 5

How competent was the other player at the Mod-Signal Game?

1 2 3 4 5
☐ ☐ ☐ ☒ ☐
 incompetent neutral competent

Question 6

Would you want to play with this player again? Explain briefly.

Yes, I liked how truthful it was and how many points we got in total.

You can now turn over the last questionnaire (general questionnaire) on the table.

General Questionnaire

Question 1

What is your age, sex and what are you studying?

I'm 20, a male and Studying computer Science

Question 2

Were the instructions provided at the start sufficient enough to understand the game? If not, were the trials enough to get a proper understanding of the game?

The instructions and trials were more than enough to understand the game

Question 3

What was your mood like today?

Slightly on the bad side, due to a bad assignment

Question 4

Did you have any prior knowledge of the Mod Game before the start of the experiment?

No, I did not.

Don't forget to answer the questions on the other side of the paper!

Question 5

Did you know any of the other participants that you played with in the session before the start of the experiment?

I came to the experiment with a friend but did not know when I was playing.

Question 6

Some of our participants have played the Mod-Game with a computer partner rather than a human partner in some of the blocks.

For each block give a percentage on how confident you are that you played with a human partner in that block and briefly explain why. (e.g. Block 1: 100%, you are completely certain that you played with a human partner)

Block 1:

100%

Block 2:

50%

Block 3:

80%

P-beauty contest

All participants will do this contest. The winner gets a Tony's Chocolonely chocolate bar of their choice! Mark the number that you think will be the average of the numbers chosen by all participants, divided by 3 and multiplied by 2. (take $\frac{2}{3}$ of the number you think will be the average of the numbers chosen by all participants, e.g. if you think 90 will be the average of the numbers chosen by all participants, you mark 60)
